and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I have wireless service so that my children can reach me in an emergency. My nine year old has had Leukemia and a Bone Marrow Transplant so it is vital that her school is able to contact me at all times. I should not be charged a higher rate so that I am able to leave my home while my children are at school. I never use the phone to make calls only to receive them. Thank you in advance for considering this matter in more detail.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Lyssa Bookman
